

Ammonium thioglycolate, 2.5%

CAS#: 5421-46-5, 7647-14-5

Where is this allergen found?

Ammonium thioglycolate is found in the hairdressing industry. It is used on hair to cause it swell, making it permeable.

How can you avoid contact with this allergen?

Avoid products that list any of the following names in the ingredients:

- AI3-26246
- Ammonium mercaptoacetate
- Ammonium thioglycolate
- Ammonium thioglycollate
- EINECS 226-540-9
- HSDB 7167
- NSC 6954
- Thiofac A-50
- Thioglycolic acid ammonium salt
- Thioglycollic acid, ammonium salt
- USAF MO-2

What are some products that may contain this allergen?

Hairdressing Products

For additional information about products that might contain this allergen, visit the Consumer Product Information Database. These lists are brief and provide just a few examples. They are not comprehensive. Product formulations also change frequently. Read product labels carefully and talk to your doctor if you have any questions. These are general guidelines. Talk to your doctor for more specific instructions.
