

the art and science of smart patch testing<sup>™</sup>

## EM396: Atropine sulphate CAS#: 5908-89-6

## **Patient Information**

Your patch test result indicates that you have a contact allergy to atropine sulphate. This contact allergy may cause your skin to react when it is exposed to this substance although it may take several days for the symptoms to appear. Typical symptoms include redness, swelling, itching, and fluid-filled blisters.

### Where is atropine sulphate found?

Atropine sulphate is found in an injection. It is used to reduce body secretions such as saliva during surgery and after surgery to reverse the effects of medicines given to stop the muscles from moving during the operation. It is also an antidote for certain types of poisons.

#### How can you avoid contact with atropine sulphate?

Avoid products that list any of the following names in the ingredients:

- 1-alpha-H,5-alpha-H-Tropan-3-alpha-ol (+-)-tropate (ester), sulfate
- (2:1) salt
- Al3-14072
- Atropen
- Atropette
- Atropin siran
- Atropin siran [Czech]
- Atropine sulfate
- Atropine sulfate (VAN)
- Atropine sulphate
- Atropine sulphate (VAN)
- Atropine, sulfate (2:1)
- Atropinium sulfate
- Atropinsulfat
- Atropinsulfat [German]
- Atropiny siarczan

- AtropisolCorbella
- DL-Tropanyl 2-hydroxy-1 phenylpropionate sulfate

Atropiny siarczan [Polish]

- Davurtrop
- EINECS 200-235-0
- Eyesule
- Ichtho-bellol
- Lio-atropin
- MBK
- NSC 26671
- Ryuato
- Sulfate d'atropine
- Sulfate d'atropine [French]
- Sulfatropinol
- Tropintran

# What are some products that may contain atropine sulphate? <u>Medications:</u>

Injections

\*For additional information about products that might contain **atropine sulphate**, go to the Household Product Database online (http:/householdproducts.nlm.nih.gov) at the United States National Library of Medicine. These lists are brief and provide just a few examples. They are not comprehensive. Product formulations also change frequently. Read product labels carefully and talk to your doctor if you have any questions. These are general guidelines. Talk to your doctor for more specific instructions.
