

## Caine mix [A]

---

CAS#: 94-09-7, 61-12-1, 136-47-0

### Where is this allergen found?

---

Caine mix [A] contains three anaesthetics for topical use: benzocaine, dibucaine hydrochloride, and tetracaine hydrochloride. It is found in products that reduce pain, itching, and stinging. The mix is also found in haemorrhoidal preparations and cough syrups.

### How can you avoid contact with this allergen?

---

Avoid products that list any of the following names in the ingredients:

- benzocaine
- dibucaine hydrochloride
- tetracaine hydrochloride
- tetracaine-HCL
- cinchocaine-HCL

### What are some products that may contain this allergen?

---

Medications

- Analgesics
- Antiseptics
- Hemorrhoid treatments
- Lozenges for coughs and sore throat
- Over-the-counter first aid treatments for pain and itching of injured skin
- Prescription therapies for ear and eye inflammation
- Sprays for coughs and sore throat

For additional information about products that might contain this allergen, visit the Consumer Product Information Database ([householdproducts.nlm.nih.gov](http://householdproducts.nlm.nih.gov)) online at the United States National Library of Medicine. These lists are brief and provide just a few examples. They are not comprehensive. Product formulations also change frequently. Read product labels carefully and talk to your doctor if you have any questions. These are general guidelines. Talk to your doctor for more specific instructions.
