

Cyclohexylthiophthalimide

CAS#: 17796-82-6

Where is this allergen found?

This is a vulcanization retarder that is added in rubber processing to prevent premature vulcanization, thus improving the safety of rubber production.

How can you avoid contact with this allergen?

Avoid products that list any of the following names in the ingredients:

- 1H-Isoindole-1,3(2H)-dione, 2- (cyclohexylthio)-
- 5-21-11-00117 (Beilstein Handbook Reference)
- BRN 0613992
- CCRIS 8493
- CP 29242
- Cyclohexylthiophthalimide
- EINECS 241-774-1
- HSDB 7259
- N-(Cyclohexylthio)phthalimide
- N-Cyclohexylsulfenylphthalimide
- Santogard PVI
- Santogard PVI-DS

What are some products that may contain this allergen?

Rubber Products

For additional information about products that might contain this allergen, visit the Consumer Product Information Database (householdproducts.nlm.nih.gov) online at the United States National Library of Medicine. These lists are brief and provide just a few examples. They are not comprehensive. Product formulations also change frequently. Read product labels carefully and talk to your doctor if you have any questions. These are general guidelines. Talk to your doctor for more specific instructions.
