

P-phenylenediamine

CAS#: 106-50-3

Where is this allergen found?

This substance is used in products that dye hair.

How can you avoid contact with this allergen?

Avoid products that list any of the following names in the ingredients:

- 1,4-Benzenediamine, 2-methyl-
- 2,5-Diaminotoluene
- 2-Methyl-1,4-benzenediamine
- 2-Methyl-p-phenylenediamine
- 2-Methyl-para-phenylenediamine
- 4-13-00-00246 (Beilstein Handbook Reference)
- 4-Amino-2-methylaniline
- BRN 0774521
- C.I. 76042
- CCRIS 7693
- CI 76042
- EINECS 202-442-1
- HSDB 6251
- Toluene-2,5-diamine
- Toluylene-2,5-diamine
- p,m-Tolylenediamine
- p-Toluenediamine
- p-Toluylendiamine
- para-Toluenediamine
- para-Toluylenediamine
- para-Tolylenediamine
- PPD

What are some products that may contain this allergen?

Hair dyes

For additional information about products that might contain this allergen, visit the Consumer Product Information Database (householdproducts.nlm.nih.gov) online at the United States National Library of Medicine. These lists are brief and provide just a few examples. They are not comprehensive. Product formulations also change frequently. Read product labels carefully and talk to your doctor if you have any questions. These are general guidelines. Talk to your doctor for more specific instructions.
