

NA26: Cinchocaine-HCL

CAS#: 61-12-1

Patient Information

Your patch test result indicates that you have a contact allergy to Cinchocaine-HCL. This contact allergy may cause your skin to react when it is exposed to this substance although it may take several days for the symptoms to appear. Typical symptoms include redness, swelling, itching and fluid-filled blisters.

Where is dibucaine hydrochloride found?

Dibucaine hydrochloride is an amide local anesthetic. It is the active ingredient in some topical hemorrhoid creams.

How can you avoid contact with dibucaine hydrochloride?

Avoid products that list any of the following names in the ingredients:

- Dibucaine hydrochloride
- C 3225
- Cincaine chloride
- Cincaine hydrochloride
- Cinchocaine hydrochloride
- Cinchocainium chloride
- EINECS 200-498-1
- Nupercainal
- Nupercaine hydrochloride
- Cinchocaine hydrochloride
- 2-Butoxy-N-(2-(diethylamino)ethyl)cinchoninamide monohydrochloride
- 2-Butoxy-N-(2-diethylaminoethyl)cinchoninamide hydrochloride
- 2-Butoxy-N-(2-diethylaminoethyl)cinchoninic acid amide hydrochloride
- 4-Quinolinecarboxamide, 2-butoxy-N-(2-(diethylamino)ethyl)-, monohydrochloride
- Butoxycinchoninic acid diethylethylenediamide hydrochloride
- Cinchoninamide, 2-butoxy-N-(2-(diethylamino)ethyl)-, monohydrochloride
- Benzolin
- Dibucaine hydrochloride
- Nupercaine hydrochloride
- Percaine
- Sovcaine

What are some products that may contain dibucaine hydrochloride?

- Antiseptic Wash
- Hemorrhoid Creams
- Local Anesthetics:
 - Aloe vera with lidocaine
 - Antiseptic and topical analgesic
 - First aid spray
 - Vaginal/perianal pain relievers

*For additional information about products that might contain **cinchocaine-HCL**, go to the Household Product Database online (householdproducts.nlm.nih.gov) at the United States National Library of Medicine. These lists are brief and provide just a few examples. They are not comprehensive. Product formulations also change frequently. Read product labels carefully and talk to your doctor if you have any questions. These are general guidelines. Talk to your doctor for more specific instructions.
